FESTIVAL DU FÉMININ®

A transformative journey by women for women

Asia's third year to host an exceptional 'for women only' event in Bangkok!

Thailand will host for the third time the Festival du Féminin® from March 23-24, 2018 hosted at Swissôtel Le Concorde Bangkok. Created and started in Paris by the Centre Tao, this registered trademark festival is held in cities all over France and in French-speaking countries (Quebec, Belgium, Morocco) and it is rapidly developing internationally (India, USA, Colombia, Thailand, Singapore, Hong Kong) with new projects starting in Malaysia, New Caledonia, Mexico and initiated in Iran. The Festival du Féminin® links women all over the world to gather and connect with each other.

During the two-day festival, we as women are invited to experience a beautiful inner self-journey to discover, feel, contact and connect the multiple facets and spaces within ourselves, with our femininity.

The Festival du féminin® comprises 20 interactive creative workshops guided by an array of experienced and acclaimed local and international facilitators. Included among them are therapists, lecturers, writers, shamans, dancers, painters, singers, energetic healers, coaches, midwives and wise women. They all generously share and convey their deep experience to accompany and empower women to trust and follow their own path to reach their essence, their deepest, their most sacred and vibrant inner world. They will guide us to discover our strengths and vulnerability, our sensitivity and our power.

This festival is designed to be experienced fully, body and mind, with all senses awakened. The festival facilitates interactive and participatory workshops that bring women face to face with a wide variety of practices, healing modalities, dance, songs, visualization, meditation, arts and initiation rituals.

It is joyful, it is liberating, it is convivial, it is soft, it is powerful, it is communicative, it is fulfilling, it is vibrant, it is pleasurable, and it is in full swing!

Where am I as a woman? How do I live my femininity in my heart, in my body, in my belly?

Come and share in consciousness these unique moments of deep listening and encounters: opening up to oneself and to the other, becoming an agent of change for the world we wish to build. This is a sisterhood movement blossoming across the world. It thoughtfully considers a longing for values and liberty, a longing for grounding and harmony to contribute to the re-enchantment of the world. Join us, connect, laugh, cry and be your authentic self. We are all unique women and we will honour that during the festival.

Workshops are conducted in English.

FRIDAY 23 MARCH 2018

8:30 – 9:00: Registration

Opening Ceremony

ROOM 1 / 9:00 – 10:00

Welcoming words by the organizing team of Festival du Féminin®. An opening ceremony to anchor and ground our shared space as a safe container in order to satisfy our longing for meaningful connections, to foster vulnerability & empowerment, and encourage us to nurture ourselves with compassion.

How would the world change TODAY if women came together as sisters undeterred by their differences; to support and empower one another regardless of their age, race, culture, sexuality, religion, socioeconomic status, physical appearance and abilities, or language?

For centuries women have gathered in circle to commune with each other through genuine interest and acceptance. Bonds between women can be some of the most intensely satisfying and unbreakable. We learn to see and hear one another and to offer our support without imposing advice or placing judgment, recognizing that each woman is whole and complete even when in the midst of a personal challenge.

ROOM 1 / PELVIC FLOOR – SAFETY ANCHORING with Anne MORIN

The perineum muscle structure is our basis. It contributes to our respiration, our corporal safety, our verticality and our solidity on earth. It's a place where our intimacy is unknown, unexplored and unfelt. Our pelvis is thus forsaken by feeling of life. The workshop will bring the discovery of where we stand, what we can consolidate, stretch, unravel and connect. We will discover this birthplace. We will visit our pelvic, osseous, joint and abdominal anatomy via an "inside feel". We will discover which moves, life and presence "in itself", to the self and to others, can raise when we find the security in our basis. We will go the discovery of our new breath, deployed thanks to a better connection with our pelvis and perineum. A new basis, soft and powerful, will thus envelop ourselves as a foundation to connect our strength.

Anne Morin (France) is a Midwife, yoga teacher, trained in eutony, naturopathy, sophrology, dance. Her major tools are the sounds of vowels and the shamanic drum. The sound vibrations enable to go and touch the deepest emotions within oneself, then allowing healing of the mind-body at a cellular level. Anne creates a very safe space, a quality coming from her long experience of being a midwife in home births, and of being a sailor. She guides you in the birth of your essence, your sacred sexuality, the recognition of your inner child to allow your life force to emerge, to be released in the pleasure of being deeply with a joyful heart.

ROOM 2 / RE-WILDING ECOFEMINISM with Maria Eduarda SOUZA

How do we reclaim the sovereignty of women and nature in contemporary life?

What are the qualities that nature embraces and how do women become one with it? From the power of creation, diversity and resilience we will journey through our minds and hearts to rediscover the place of the wild women.

The workshop is an inquiry of what knowledge and wisdom nature can share with us. We will investigate how do we heal the subjugation of the past, how do we stop the oppression of the present and how can we move forward into a world together, human and non-human community.

The workshop is a sensorial experience through the elements and its qualities. Earth, Air, Water and Fire will be felt physically and emotionally. Connecting to the feminine principle that women and nature are associated not is passivity but in creativity and in the maintenance of life. Together we will inquire what part can each of us play in making this world a home for all?

The workshop is held as a sacred ceremony through a mandala where meaningful reflection, sharing, deep prayer and meditation is offered as a threshold to the natural world and our indigenous soul. Once in the place of creation, connected to our birth-rite of sacred life, how do we act in the world to create empowerment?

Maria Eduarda Souza (Brazil) is a researcher, activist and educator. Her mission is to engage people with the natural world and foster a reflection about our presence on Earth. Originally from Brazil she has worked in the Amazon Rainforest with indigenous tribes and the United Nations. Maria Eduarda holds a Master's Degree in Ecology and Spirituality from Schumacher College in partnership with Trinity Saint David University in the UK. Maria is based in Bangkok working as an environmental

educator at Traidhos Tree-Generation Barge Program. She is currently facilitating a study group programme on the book "Women Who Run With The Wolves" by Dr Clarissa Pinkola Estes.

ROOM 1 / CELEBRATING YOUR WOW – Women of Wisdom with Onyxe ANTARA

Wisdom is passed down through experience and through teachings. Our lives are a tapestry of experiences, woven together with threads that connect us to other women as our teachers, our guides, and our mentors.

Think of a significant woman in your life, past or present, who helped shape you into the woman you are today. These are our mothers, grandmothers, teachers, mentors, and sisters, by birth and by choice. Sometimes we have grown through their loving acceptance. Sometimes we have grown through the challenges they presented, intentionally or not. Even the Great Mother, our Earth, has been a source of nourishment, support, and wisdom.

Bring a photograph* of a significant woman in your life, or Mother Earth. We will honour her and her teachings through a meditation and gratitude ceremony.

*If you do not have a printed photograph, feel free to use a photo on your smart phone or other electronic device.

Onyxe Antara (USA) is deeply committed to how sacred witnessing of personal journeys can expand world views and transform lives. ROOM 2 / FROM FEMININE AND SACRED SEXUALITY TO CONTRACEPTION AND NATURAL FERTILITY with Lydia VASQUEZ

A woman's womb is the centre of her health, her life force, her sexuality and the creation of her sexual and feminine energy. At this moment the energies of the Sacred Feminine are very present on Earth and many women hear this call.

This workshop is an invitation on connecting to discovering the inner forces and creativity that nourishes us. It proposes an introduction to the amazing yoni eggs that women are reported to have been practicing for over 5000 years, namely at Royal Palace in China. Yoni is a Sanskrit word for the female genitalia that means "sacred space" The multiple benefits of Yoni eggs are today available to all and not anymore kept secret in more closed circles of Taoist practitioners: by awakening the tissues, organs and muscles, Yoni eggs awaken and increase overall sensitivity (among which libido, sensuality and new types of sensations are just only one aspect) while it also helps to overcome some issues of infertility and incontinence. The methods of combined indices

(symptotermia) as an alternative to hormonal contraception will also be addressed as well as the dances of fertility of the work of Aviva Steiner, (recognized by the WHO), the method of Dr. Mieusset (natural contraception masculine).

Maximum capacity: 25 people

*A former professional dancer, **Lydia Vasquez** (Spain) has been since ever passionate about medicinal plants. Her 20-year- Taoist practises enabled her to develop her own personal method to retain her menstrual flux, to get rid of sanitary napkins and to enjoy the numerous advantages of this new way of knowing, respecting and naturally controlling her body. She set up Free Moon to accompany women to journey on their femininity through individual session, workshops and online training and shop.*

LUNCH BREAK: 12:45 – 2:00

ROOM 1 / THE WOMAN AND HER NINE PEARLS with Monique GRANDE

Women are all beautiful souls, but they do not know it. If they knew just a little of the magnitude of their own value, no doubt the whole world would shiver with a new clairvoyant and nurturing breath. Through the diversity of its approaches - body, emotional, mental, energetic and spiritual - this workshop proposes to reunify your lunar nature and your solar essence. The symbol of pearls here joins the idea of beauty and self-care. Nine pearls to awaken your femininity. Energy exploration, dance, transformation practice, olfactory meditation, creative visualization... A unique journey for all those who want to enjoy their freedom through millennium-old rituals and meditations that we can all re-experience daily.

***Monique Grande** (France), Author of the bestseller *Femininity* (Ed. Le Souffle d'Or) and Speaker on the subject of female identity and gender issues, facilitates trainings, trips and intensive seminars. ROOM 2 / VIBRANT AND ALIVE with Caroline COMBELLES

Tension Release Exercise (TRE) is an innovative method designed to release tension and stress from body and mind. Consisting of 7 simple exercises, it reactivates the innate capacity, common to all mammals, to spontaneously tremor while deeply relaxing. By experiencing this physiological response, you have the opportunity to feel the inner wisdom of your own body, its resiliency and ability to move towards more freedom. As a woman, TRE helps you to connect to your inner femininity: it can bring your pelvis and womb to a new sense of aliveness and vibrancy, and facilitate the release of patterns of contraction. This workshop is an initiation to the concepts and

practice of TRE, and by giving a little taste of its deeply soothing power, an invitation to explore it further.

Important note: the method is gentle, however it works with the nervous system and is not recommended in the context of a group setting for participants with one of the following conditions: pregnancy, blood pressure or heart condition, significant physical handicap or mental disorder.

Maximum capacity: 20 people (priority given to women who have never practiced it before).

*Living in Bangkok for 7 years, **Caroline Combelles** (France) teaches meditation, hatha yoga, yin yoga, stress release and a wide array of mindful movement methods. Having a keen interest in stress and trauma, she has been developing knowledge of their imprints on the body and efficient ways to release them. Combining meditation, mindful movements and tension release exercises (TRE) she helps her students to free themselves from depressive and anxiety symptoms. Caroline thrives at holding a safe, kind and generous space for her students, leading them to express their true selves and find their way to happiness.*

ROOM 1 / "Enough?" with Masooma KACHELO

Self-compassion is the antidote to the "not enoughness" that lives in all of us. Self-compassion is no longer an idea but instead an active practice. A practice that is simple and powerful. Come spend a meditative session practicing and exploring how self-compassion can create the soft net, no matter how painful and compelling our story of not enoughness may present itself to be.

***Masooma Kachelo** (Pakistan) knows the feeling of "not enoughness" in many areas of her life. The one practice that has helped her through the depths of shame is the practice of self-compassion. She has trained to teach mindfulness through Mindful Schools in California, UVA Minds Amsterdam, and Centrum Voor Mindfulness Amsterdam. Masooma teaches a mindful parenting course, mindfulness to children in schools, and privately to adults. She has a Master's in Marriage and*

ROOM 2 / FINDING OUR OWN VOICE with Maéva MICHEL

Femininity, vibrations, circle songs, singing... your voice is a treasure: have you ever heard and carefully listened to your voice, not only physically but also on an emotional level? Where does it touch you? How does your body enter in vibration by singing? How does this vibration travel inside?

Find an answer to all these questions in this experience of singing through consciousness, guided by Maéva. Sharing improvised songs, being in the present moment and open to what is happening inside through the different exercises and games together.

Maéva Michel (France) is a singer who grew up with music, especially singing. In her early childhood, with her first experience of live concert in the choir "La Villannelle", she had a mystical experience: feeling energy passing from the public to the choir during the silences between the pieces, and from the choir to the public during the pieces. She was able to put words to this experience much later in her life. Since then she realizes that all her life she tried to feel this again. Now she knows where she can find it, and her goal is to share it.

ROOM 1 / PRIMITIVE EXPRESSION®: DANCE, EXPRESS, LET GO, VIBRATE! with Gisèle BARADEL

Primitive Expression® is a joyful and dynamic form of dance performed to rousing percussion music and accompanied by an intense liberation of the voice that provides physical and neuropsychological benefits. In this practice, rhythm, dance and song play on a symbolic level. The collective expression is enthusiastic and festive, inspired by both African and European dances. Drawing its symbol from universal archetypes it combines and unifies the dual symbols of body/mind, self/other, visible/invisible, masculine/feminine in a simple, refined, yet powerful movement. Sustained by the energy of the group one explores the multiple facets of one's individuality in an accompanied and benevolent environment. Truly amazing. This collective energy is something unique to be experienced, felt and shared in a group setting. You feel energized and happy!

Gisèle Baradel (France), a professional dancer and Latin dance teacher for the last 15 years, is currently a Primitive Expression dance therapist following the teachings of France Scott Billman, who initiated and developed the discipline. Gisèle co-founded CalorDanse school and is the choreographer of a Samba filles group. She is passionate about percussion music and the powerful opening transformative process that dance creates within a group, between a couple, and inside a person: letting go, daring to move, pelvic fluidity, easiness to guide and acceptance to be guided. Today she runs group sessions in Primitive Expression across a wide range of societal structures (elderly clubs).

ROOM 1/ JOURNEY ON THE SHAKTI PATH: REUNITING WITH COLLECTIVE FEMININE WISDOM with Akiko IGARASHI and Amelia KANG

There is an intuitive knowing in all women of a wisdom that has been buried, oppressed, and hidden since the advent of modern society. Through the healing vibrations of the Tibetan singing bowls and channeled meditation, Akiko and Amelia will take you on a meditative journey on the Shakti path to reconnect with the sacred inner paths of spiritual workings, healing and empowerment. When we learn to live from our feminine wisdom we cultivate the power to shift consciousness on both an individual and collective level.

ROOM 1 / REFLECTING SELF-LOVE TO ONE ANOTHER with Cristy APHIMONTHOL

Truelove is self-love. In order to thrive and move to where we deserve to be, we need to be aware of what we need to fully love our inner self in all its aspects. When we truly fill with our own love we will naturally show others how to love themselves and be able to serve and support them. Complete inner self-love means accepting every good, bad, ugly and best in ourselves. Without it, we only reflect what we lack. Instead of doing good we may do harm to one another.

This workshop illuminates the elements of self-love, acceptance, and kindness to heal the parts where we have insecurity, doubts, and fear, to love at both the conscious and subconscious level.

I am filled with passion to walk with you on this personal development journey to thoroughly, fully love and accept every good bit and flaw as the way we are.

Cristy Aphimonthol (Thailand), a serial entrepreneur, consultant, executive coach, life transformer and spiritual healer, provides multiple consulting, coaching methodologies within various industries and other energy healing properties through science and spiritual practice.

She received her Therapist and Spiritual Science in Master Practitioner NLP & Master Coaching credentials, Advance Hypnotherapy and Kinesiology with energy points that work directly with the subconscious mind. Further education in Ph.D. integrated medicine at Quantum healing.

She specializes in helping her clients resolve inner conflict: Depression, OCD, anxiety, trauma, and addictions, and to achieve life goals and release where they are stuck in life. Cristy is passionate about helping companies and groups to improve communication and conflict resolution strategies. She has worked throughout Australia, Turkey, Thailand and Qatar. As a volunteer, Cristy worked in Qatar for more than a year, to support reducing human trafficking and provided support to women affected.

Orapun Parapob (Thailand) is a people management consultant and Creating Director of a new community in Thailand, the Iconic Women Alliance or IWA. After working as a consultant with top corporates in Thailand for almost 15 years she feels that development and success at the corporate level alone may not be enough to move the society and economy upward. Orapun believes that the next generation in our society depends on the active contribution, and the realization of the full potential, of every individual in it. In 2017 Orapun pitched her idea of establishing the IWA as a life-long learning community for Thai women, whom she believes have 'untapped and underrated' power and capabilities. Her IWA community feeds content and provides development workshops for women with subjects covering life planning, finding inner strengths, developing personality, relationship improvement, and leading as a woman. Orapun believes that when women hone these skills they can become successful without sacrificing the satisfaction of a balanced professional and personal life.

ROOM 1 / A JOURNEY FROM GUILT TO FORGIVENESS with Catherine BARBIER and Stephanie LACROIX

Based on the tools and teaching of Don Miguel Ruiz and Olivier Clerc, this workshop is first and foremost a journey about Women and their guilt. Since the beginning, Women have carried a huge amount of guilt like heavy, awkward baggage that we sling on our shoulders and which seems to continue generation after generation. As life goes on, it becomes bigger and heavier baggage. From not good enough daughters, sisters, or friends to not good enough mothers, wives, and professionals. This is a burden that we, as counselors, try to heal with most of our patients. And one of the answers to that is the gift of forgiveness. Because forgiveness is not merely forgiving the person who made us suffer, but forgiving ourselves and life itself.

Catherine Barbier (France) interests are counseling and consulting. She spent 32 years in South Asia and South East Asia which gives her a sensitive approach to transcultural questions. She developed a lot of experience in the corporate world during her stay in India and has started consultancy on transcultural management. She also provides psychotherapy for Adults, couples, adolescents and children. She was trained in France in Clinical psychology and Human Resources and registered in England as a hypnotherapist. Her therapeutic approach today is based on transgenerational, transcultural psychotherapy using tools such as talk therapy, gestalt, hypnosis and coaching methods.

Stephanie Lacroix (France) has discovered the world of alternative medicine through a chronic illness that doctors and general medicine could not cure. She was trained in Traditional Chinese Medicine (Acupuncture, Tuina, Cupping, Therapeutic foot reflexology, cranio therapy, Auriculotherapy), Reiki (Reiki Master Usui and Karuna), Feng Shui, Qi Gong master, wellness and therapeutic massage and hypnosis. All those technics are tools and have one strong link: Energy. And Energy is linked with the Universe. Everything is about energy and vibration.

ROOM 2 / NATURAL TECHNIQUES TO UNDERSTANDING AND BALANCING YOUR HORMONES with Mamouchka SIMON

Hormones undoubtedly have a huge influence on a woman's life. Hormones are chemical messengers that travel throughout the body, secreted and stored by glands located on specific areas in our body, and they influence growth, metabolism, behavior, stress, appetite, fertility, period and menopause. The more we understand them and how they can affect the woman's body, mind and emotions, the better we can minimize their negative effects and enhance their positive ones. In this workshop, we will practice natural methods like acupuncture, breathing exercises, body postures, and visualization to help us avoid roller-coasters or mood swings and stay in perfect homeostasis.

Mamouchka Simon (France) is the owner of "Blue Eden Holistic Room" in Ekkamai, Bangkok where she offers Chinese Medicine, Cranio-Sacral Therapy (CST), Emotionally Focused Transformation techniques, Naturopathy and Reiki for people from all over the world dealing with any kind of physical or emotional issues. She published articles for different Thai, English and French magazines and travels regularly to Vietnam to work and learn at the hospital of traditional medicine.

Mamouchka is a huge fan and student of 82 years old French Naturopath Dr "Irene Grosjean" who has been practicing for 55 years and finds natural solutions for all sicknesses.

Integration & Closing Ceremony

Led by the team of facilitators

All participants are gathering for the final workshop that completes the two-day journey. It is time for celebration. It is time for integration.

Something has shifted within me, I can feel it. I can't quite put my finger on what it is, but now what? What should I do about it? I've just experienced two extremely powerful days and it is in this vein that this precious seed has been planted.

I recognize it, I welcome it and I honor it right away, through the festivity and joy that our festival goers have created and supported. I am grateful for having touched this chord that resonates to the very core of my being and connects me to others.

Wow it is fun! This essence of being alive feels so good, so vibrant, brimming to the full. Could this be oxytocin?! So, is this what sisterhood feels like?! This is a precious treasure I am committed to looking after.

This final and culminating workshop full of music and songs aims at sealing this conscious commitment in joyful celebration in fun: get ready for surprises! At this sweet, uplifting and graceful occasion, we share all the gifts we have received and incredible moments we get to take home!

The Red Tent

Festival du Féminin® participants have the great opportunity to participate in a Red Tent.

The concept comes from a novel written by American author, Anita Diamant. This story is fictional, but the description is based on indigenous cultures & traditions of women's circles or gynaecea, like Moon Lodges, where women having their menses or getting ready to give birth were taken care of.

During this unique time women are said to be most closely linked to their intuition and connection with the invisible world.

"In ancient times - women never did it alone! Because we share a core, fundamental experience of cycling every month (whether we still cycle, or have stopped after years of cycling) - we do better together - in the shared realm of the Red Tent.

"It evokes in women a cellular memory of an experience we all shared for millenia around the globe.

Once awakened this memory becomes a need, a yearning, a birthright"

DeAnna L'am, Founding Director

Red Moon School of Empowerment for Women and Girls

The Red Tent is a communal space, open to all women. It is a womb space where women can nurture, be nurtured and collectively break the taboo of menstruation. Through support of one another, we break the silence instilled by generations and we explore all aspects of our menstrual experience.

It is a safe and sacred place to share our experiences and our feelings, fears, pain, transformation, revelations, discoveries, growth, liberation, triumphs, and empowerment.

The Red Tent is a place for all women, whether they are cycling or not and whether they have a womb or not. It is a place for women to BE.

Other than the 75 minute red tent workshop on Friday evening, this space will be open to and welcoming Festival participants in a cozy intimate atmosphere during the two-day event to relax, rest, chat or just be quiet and receive comfort.

For red tent workshop registration kindly contact the organizer. It lasts 1 hour, 15 minutes and is scheduled at same time as afternoon workshops.

The confidentiality of the sharing is ensured. Accommodates a small group of women only (maximum of 10).

Festival du Féminin® Bangkok is happy to let you discover more of two exceptional communities.

GAMS

GAMS is an international NGO committed to and battling against the GFM Genital Female Mutilation and forced marriages.

Still today 120 to 150 million women are suffering from excision and infibulation yearly. Where women's issues are concerned, there is neither a more crucial priority nor more urgent need than to respect the full integrity of the body of little girls. It is a fundamental, intrinsic Human

Right of the Universal Constitution Chart.

SATHIRA DHAMMASATHAN

The heart of Sathira Dhammasthan is a beautiful garden: seven acres of trees, with lotus ponds, winding paths, places that radiate peace and invite the visitors to stay and meditate. Groups of visitors spend time in the garden together with the nuns of Sathira-Dhammasthan and are visiting the community center where courses and classes are held.

GRATITUDE TO VENERABLE MAE CHEE SANSANEE STHIRASUTA

Ask any Thai about Venerable Mae Chee Sansanee Sthirasuta and you will notice that not only does everyone know of her but they hold her in the highest regards.

Her remarkable teachings and humanitarian efforts to help break the cycle of violence in communities soon caught the attention of the Thai Government, which has since appointed her in several important and influential positions. In all her work, Mae Chee Sansanee uses Dhamma to bring peace, harmony, respect and open heart, without discrimination or bias into the chaotic world of high power meetings.

She has been frequently invited to attend well known and widely accepted summits in several countries, as the country representative of Buddhist ordained women, a nun. Currently, she is Co-Chair for the Global Peace Initiative of Women an organization committed to engaging in inter-faith dialogue as a means of creating world peace, and dedicated to creating both inner and outer peace and harmony in "hot-spots" around the world.

DHARMASHRAM: mindfulness Hospital

When the much-revered King Bhumibol Adulyadej passed away on October 13, 2016, Ven. Mae Chee Sansanee had the thought of expressing great gratitude by creating DHARMASHRAM, a mindfulness hospital that offers the innovation of spiritual help from birth to death. Dharmashram's concept is "living with meaning and dying with nobility". It is also a five-floor ecological building. It has 100 rooms to accommodate pregnant mothers, infants, children, the elderly, the handicapped and anyone who seeks spiritual healing and end of life care.

The newly emerging Mindfulness Hospital for Dharma Healing has the intention to help people live meaningful lives, with a minimum of suffering. They don't need to be Buddhist. Families can now come visit together and study family dynamics of communication, or alternative healing methods if someone is sick. Pregnant mothers and their partners can consciously and peacefully study their own minds and how this conditions the unborn child, with full support of the community. We can also live consciously even if we have a terminal illness and die a peaceful non-combative death. So consciousness is possible from birth to death.
